Sir.

With reference to your letter No.J.1469/Police. 273-14-5 dated the 19th October 1915, regarding the imbedding of the cash chest of the Post Office at Hosakote in the Police Station instead of in the Treasury Guard room, I have the honor to state that I inspected the place on the 10th instant, and found that the cash chest had been imbedded in the Police Station, which is an exposed portion of the Taluk Cutcherry building, with not more than a single constable at a time who can scarcely be said to be an efficient guard over treasure.

2. The only inconvenience in the Treasury guard room is that there are no railings of any kind as in some of our other Taluk Treasuries between the cash chamber and the place where the staff sits, and if a suitable railing either of wood or metal is provided, the Post Office chest which takes very little space may then be conveniently imbedded within the enclosure, as elsewhere.

(19

3 I have had a talk with the Deputy Commissioner on the subject and he agrees with me. I therefore request that needful orders may kindly be issued to the D.P.W. to have this small work carried out early, in the interests of the safety of not only the Post Office cash chest but also our own Treasury, as at present the people resorting to the Treasury for transactions get so close to the Treasury chamber, which is undesirable.

4. Till this is done, the cash chest of the Post Office may temporarily be allowed to continue in the Police Station.

I have the honor to be,

sir,

Your most obedient servant,
